SRO

Vision

The City of Ottawa is the safest traffic environment

Mission

A leading community partnership committed to preventing or eliminating road deaths and serious injuries for all people in the City of Ottawa, through culture change, community engagement and the development of a sustainable safe transportation environment.

Goal

Towards Zero – one traffic fatality or serious injury is one too many

SRO Experts say...

“Access to patient medical data is crucial for Paramedics in the first few moments of a medical or trauma emergency. The Medical Data Carrier products are simple and make this information readily available.”

Chris Hood - President - Paramedic Association of Canada

“The Medical Data Carrier products are a simple and very effective means for anyone to provide 911 and EMS with this very crucial information. In addition to the medical information, the emergency contact and medical plan information on the MDC enables first responders to notify and provide medical administration (Hospital) with relevant information at the most crucial time,”

Kelly Nash - Executive Director of The Paramedic Chiefs of Canada.

SRO MDC - Bikes and BIKES
